WHY CHOOSE SAFEHOOK

Modular systems
designed to **grow** and
adapt with your needs.

Safe, practical storage
solutions without
compromising **style**.

Low-maintenance, **long-
lasting** hardware built for
busy environments.

Hooks and bag
storage that
work together.

At Safhook, we design
durable, user-friendly
storage solutions
that help keep shared
spaces safe, organised
and easy to use.

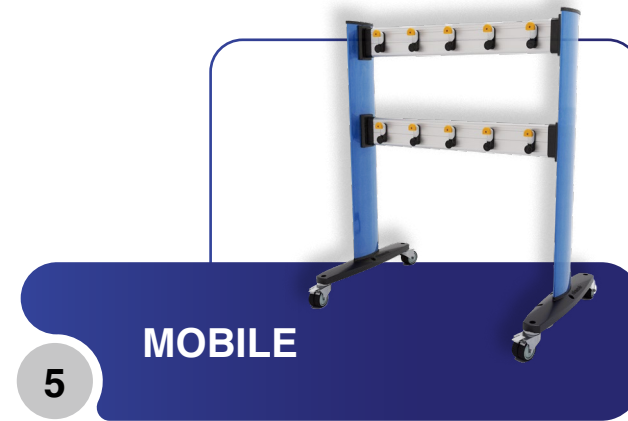

Proudly Australian-owned
and trusted by thousands
nationwide, our products
are designed to withstand
daily use in high-traffic
areas.

Whether you're storing
bags, hats or personal
items, Safhook systems
are practical, purpose-
built and proven to last.

classmatə®

The safer alternative to sharp metal hooks.

Our Classmate school bag and hat hooks offer fit-for-purpose storage solutions widely used in schools, sporting clubs, and other high-traffic areas. Built to reduce injury, support heavy bags, and withstand daily use, each hook is designed for safety, strength, and ease of installation. All hooks are moulded with Steriplus® antimicrobial additives to support hygiene in shared environments. Available in four proven designs and a wide range of colours, Safehook offers a safer, more durable, and easy-to-clean alternative to traditional sharp metal hooks.

stowmatə®

Stowmate delivers a complete, adaptable storage system that works seamlessly with the **iHook Mk2**, **Euro V2**, and **OZihook** range of hooks. Engineered from low-carbon aluminium for both indoor and outdoor use, the system is available in mobile, wall-mounted and floor-mounted formats to reduce floor clutter, improve traffic flow, and keep shared spaces neat, safe, and organised. Non-combustible and compliant options are available for sensitive environments. Backed by a 5-year warranty, Stowmate provides a durable, heavy-duty, low-maintenance solution designed to handle everyday wear and tear.
