BAGTRAC WM Unit

Stowmate Bagtrac WM Unit's from the Stowmate® range of integrated storage solutions by Safehook.

The Stowmate Wall mounted (WM) storage unit is a single sided wall mounted, storage solution. Aluminium BagTrac™ rails deliver a safe, durable, and stable storage system for schools and community environments. Hidden wall fixings and accessories that allow this product to be extended to accommodate different wall lengths is a feature of this product.

A commercial-grade product suitable for use in education, childcare, libraries, and multipurpose facilities, Stowmate WM Unit's offers reliability, and style without compromising function. Australian made performance, when form and function matter.

Intended Use

The Stowmate® Bagtrac WM Unit is designed for use in education and community environments where safety, flexibility, and space efficiency are essential.

Ideal for classrooms, corridors, libraries, childcare centres, and multipurpose facilities, the Stowmate Bagtrac WM Unit provides a practical and durable solution for storing school bags and personal items on walls.

Its robust aluminum BagTrac™ rails, ensure that it meets the highest standards of performance and durability.

Materials/Components

3000mm Base Rail - Low Carbon EcoAl Aluminium
3000mm Channel Cover - Low Carbon EcoAl Aluminium
EOR/Rail Joiner - Injection Moulded Polypropylene
Optional **NON COMBUSTIBLE EOR/Rail Joiner** - Cast Aluminium colour black

Features

BagTrac™ Aluminium Rails & Channel Covers: Single Sided media-blasted and clear-anodised rails provide double-sided storage capacity. (optional black anodised finish available)

Capacity: 3m rails comfortably accommodates 15 hooks per unit @200mm hook centres.

Low-Carbon Aluminum: Manufactured using EcoAL® low-carbon aluminium for a more sustainable, environmentally responsible product.

Hook Compatibility: Suitable for use with iHook® and Euro V2 hook products.

Easy to Clean: Smooth rail surfaces and moulded components

Warranty: Our Products – Our Promise – Guaranteed for 5 Years.

Assembly

To install the Stowmate® WM system, begin by identifying the aluminium base rails, aluminium channel covers, End of Row (EOR) caps, rail joiners, and fixing screws supplied. Confirm all components are present and the wall substrate is suitable.

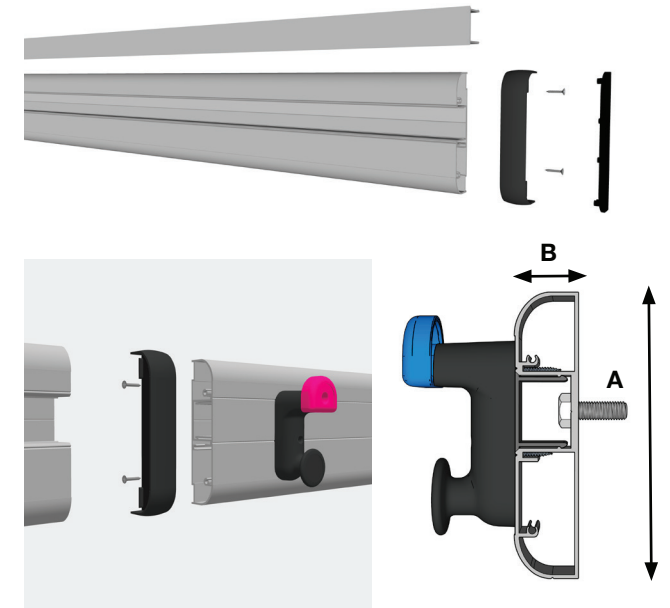

Rail Installation: Position the aluminium base rail against the wall at the required height and level. Fix the base rail to the wall substrate using suitable fixings selected by the installer (fixings not supplied). Where required, join adjacent rails using the proprietary rail joiners supplied and secure with the screws provided.

Channel Cover & Hooks: Once the base rail is fixed and aligned, clip the aluminium channel cover into place. Install hooks using the proprietary fixing screws supplied.

Final Checks: Confirm all rails are level, securely fixed, and correctly joined. The system is designed for permanent wall-mounted installation; if in doubt, consult a suitably qualified installer.

This is an abbreviated assembly explanation. Full installation details are available on our website.

Sustainability

Linc Furniture Pty Ltd is committed to creating products that are not only durable and functional but also environmentally responsible. The Stowmate® Bagtrac WM Storage Unit exemplifies this commitment through its sustainable design and manufacturing process.

Eco-Friendly Materials: Manufactured using EcoAL® low-carbon, recyclable aluminium and durable moulded components.
Energy-Efficient Production: Local production processes prioritise energy efficiency and waste reduction.

Long Lifespan: Heavy-duty construction and superior durability reduce the need for replacement.

Safe and Non-Toxic: Designed with user safety and environmental responsibility in mind.

End-of-Life Recycling: Aluminium rails and moulded components can be recycled at the end of service life.
